TOOWOOMBAS FAMOUS VOLCANIC QUARRY.

View showing the great length of face worked.

Perpendicular tiers or columns of basalt are one of the features of the quarry.

The 70-ton stony crushing plant, which delivers five grades.

AFTER THE NIGHTTIME STORM WAS DECLARED OFF.

Here is the traffic of the freighter wharves on the completion of cargo receiving; below, vehicles with goods for the department waiting to get to the wharf. The scene extended from the L.E.R.R. wharves down the Valley to several thousand feet, and all this activity was equally impressive.
